

Real Performance for the Real World

Triple Series Subwoofer

Episode precision engineering combines high-performance components and aesthetics to create a great-looking subwoofer that provides an incredible sound experience. Our Triple Subwoofer features stunning good looks, BASH® amplification, and three woven fiberglass woofers that together deliver one amazing performance.

Designed to Perform

Three custom drivers with Nomex spiders, double-stacked/vented motors, and oversized high-temp voice coils provide incredible output with low distortion.

Built for Sound

A furniture-grade cabinet offers high style and acoustically sound construction with sculpted curves and rounded corners for an elegant look.

Customized for Performance

Adjustable crossover and phase controls allow customized tuning to match any speaker and room set-up for the ideal audio/video performance.
