

Overview

- Install a USB drive containing the demo video into the upper blue USB port in the media bay.
- Turn on the TV with the remote.
- Complete the initial setup via the setup wizard, skipping through screens whenever possible.
- Navigate to Settings > Setup > Advanced Setup > Power On Mode > set to ON
- Navigate to Settings > Setup > Advanced Setup > Store Mode > set to ON
- The TV enters store mode and starts looping the video on the USB stick.

Procedure

USB Drive Preparation

Format an empty USB drive as FAT32.

Copy your demo video (only) into the root folder of the USB. The video's file name does not matter. See the product manual for a complete list of supported file formats.

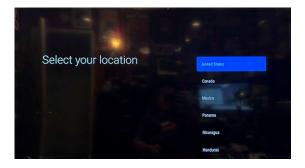

While the TV is off, plug the USB drive into the upper blue USB port in the media bay.

Pro Tip: Once the TV starts operating, it populates the drive with additional files. This is a normal part of the Android TV operating system; **do not delete** files or folders, or move the demo video into any subfolder.

Complete the TV Setup Wizard

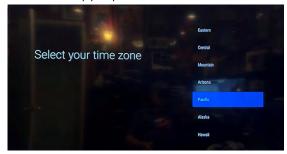

Use the remote to turn on the TV. If this is the first time the TV has been powered, the setup wizard begins; follow the procedure below.

· Select the country in which the TV is installed

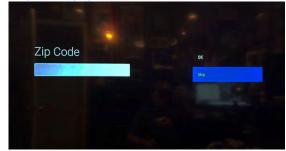

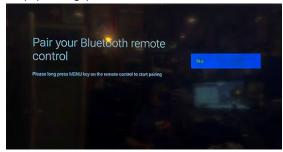

• Select the appropriate time zone

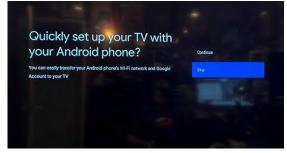

• Skip the zip/postal code

• Skip pairing your Bluetooth remote

• Skip Android phone setup

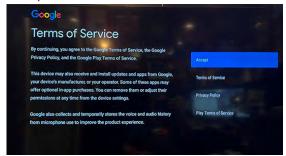

• Skip Wi-Fi network setup

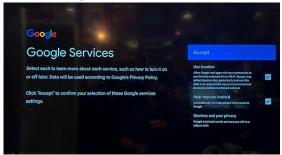

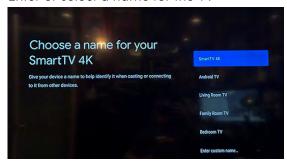

• Accept the Terms of Service

• Accept Google Services

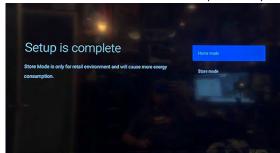

• Enter or select a name for the TV

• Accept the End User License Agreement

• Select Home Mode on the "Setup is complete" screen

Once this is complete, the TV displays the main menu.

Set the TV to Auto-Power On and Store Mode

- If you are not already in the main menu, press the Home a button on the remote.
- Select the Settings (gear) icon in upper right-hand corner of the main menu.

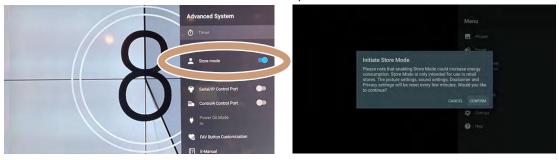

• Select Advanced System.

• Select Power On Mode and set it to ON. The TV returns you to the Advanced System menu.

• Locate Store Mode and enable it, then confirm your choice.

Pro Tip: While store mode is enabled, you cannot change the Power On mode.
