

Episode Lynk Audio Casting Device

Episode Lynk is a simple audio source solution. Lynk connects to an amp, enabling users to play music from mobile devices to their system via Bluetooth, Airplay 2, Chromecast and Spotify Connect. Make any amplifier smart, and easily allow users to integrate native music streaming from their devices with Episode Lynk.

- Great value, all-in-one solution
- Seamless integration
- User-friendly
- OvrC enabled
- Ethernet hardline setup for reliable performance
- No additional app required

Great Value

Lynk is an inexpensive audio casting interface which provides an all-in-one solution that bridges an existing gap allowing users to seamlessly connect their mobile devices to an amp.

User Friendly

Seamlessly allow users to send music wirelessly from their phone using native controls on their device, no additional app required. Supports integration for Control4, AirPlay2, Chromecast, Spotify Connect, and Bluetooth Listening, including for voice control on capable devices.

Dealer Friendly Features

Small form factor makes it easy to install using native protocols. WIFI and ethernet connectivity, plus Ethernet analog and optical audio outputs ensure reliable performance. Additionally, OvrC makes it easy to manage.

Specs

General	
Model Number	EA-300-LYNK
Power Input	5V DC, 2A
Wired Ethernet	10/100Mbps
WiFi	Dual-Band Wifi(2.4GHz and 5GHz) , 802.11a/b/g/n/ac
Power Cord Length	1M
Audio Casting Services	Apple Airplay2, Chromecast audio built-in, Spotify Connect
Bluetooth	Bluetooth v5.2
OVRC	OVRC-Enabled
Environment	
Operating Temperature	+14 ~ +122°F; -10 ~ +50°C (Indoor)
Storage Temp	-22 ~ +158°F; -30 ~ +70°C
Connectivity	
Ethernet	RJ-45
Audio Output	3.5mm Combo Analog/Optical output(optical adaptor in box)
Power	USB-C
Dimensions	
Product	3 11/16" (W) x 1 3/16" (H) x 3 3/8" (D)
Weight	0.4lbs(without power supply)
Shipping Dimensions	7" (W) x 6" (H) x 4 3/8" (D)
Shipping Weight	1lb
