1. LTE connectivity requires a subscription to Ring Protect Pro

Additional Ring Jobsite Security Solutions

Quick Release Battery

Add up to two Ring Quick Release Battery Packs to supply backup power for the case and have replacements on hand for use in Ring Cameras.

Ring Power Pack

Add additional Ring Power Packs to extend the built-in backup battery of Ring Alarm Pro. Up to two Power Packs can be placed in the Security Case.

Frequently Asked Questions

What is Ring Jobsite Security?

Ring Jobsite Security is a bundle of Ring devices repurposed for a jobsite. All the included devices are orange (aside from Alarm Pro and Power Packs), and Ring Alarm Pro and Ring Power Packs are stored in a heavy duty protective case. Traditionally, construction site security only targets large scale projects such as stadiums or office buildings. Ring Jobsite Security leverages Ring's existing infrastructure to provide builders peace of mind that so many customers have experienced - for all jobsites, big and small.

What if I don't have internet at my jobsite?

Ring Jobsite Security can provide a cellular internet connection to your jobsite with optional 24/7 Backup Internet. 3GB of data each month are included with a Ring Protect Pro subscription, and you can opt into Extra Data if you want to use more cellular data for \$3 per additional GB.

Can I move my security system from one jobsite to the next?

Yes. You can easily take the full system from jobsite to jobsite.

What is Ring Protect Pro?

Ring Protect is a comprehensive optional subscription service that lets you review, share and save every video and photo captured by your Ring cameras. Without Ring Protect, you'll still receive motion-activated notifications, real-time video with Live View, Two-Way talk and Lifetime Theft Protection for free. If you choose to subscribe:

Ring Protect Pro is \$20 a month/\$200 annually per location and activates video recording, photo capture and sharing for ALL Ring Doorbells, Cameras and Alarm at one location plus the following:

- **Optional 24/7 Backup Internet:** Keeps your system connected when the internet goes out. (3GB/month included and extra data for only \$3 per GB.)
- **Person Alerts:** Customize motion alerts to only send notifications when Ring Security Cameras detect a person.
- **No Camera Limit:** Set-up as many cameras as you would like to see your jobsite from every angle.
- **Commitment-Free:** Enjoy month to month coverage with no long term commitments.
- **Optional Professional Monitoring:** Add Alarm functionality by adding Alarm Sensors (sold separately) to get emergency response if the Alarm is triggered.
- **Optional Flood and Freeze Protection:** Get automated calls when water and freezing temperatures are detected with additional Flood and Freeze Sensors (sold separately).*

* Professional Monitoring enrollment required
