Add-Ons

Ring Chime Pro

Hear notifications anywhere in your home when someone presses your doorbell or motion is detected. Plus, amplify all your devices and boost your Wi-Fi network to all your Ring Video Doorbells and Cams.

Voice Assistant

Enjoy hands-free home monitoring with select Alexa-enabled devices. Hear custom notifications and use two-way talk with audio-only Echo devices, and launch video with Echo Show, Fire TV and Fire Tablets.

Frequently Asked Questions

What is the benefit of 3D Motion Detection?

3D Motion Detection provides more reliable motion alerts and reduces notifications that may be unnecessary or unhelpful. The radar sensor that powers 3D Motion Detection also has benefits such as: better detection of objects approaching head-on, better able to define detection distance, decreases false positives while still providing timely alerts.

What is Bird's Eye View?

Powered by radar and 3D Motion Detection, Bird's Eye View provides an aerial map view of motion events in front of the doorbell and clearly shows the path that visitors take when visiting the property giving more context by being able to see where a motion event begins.

What is Ring Protect?

Ring Protect is a comprehensive optional subscription service that lets you review, share and save every video and photo captured by your Video Doorbell Pro 2, plus a few extra perks. To compare and learn more about Ring Protect visit <https://ring.com/protect-plans> to choose a plan that works for you.

Do I need Ring Protect to use Video Doorbell Pro 2?

No. You can still use your doorbell or camera to watch over your home and answer the door from anywhere, even without a subscription to Ring Protect. Without Ring Protect, you'll still receive real-time notifications when anyone comes to your door, and you can answer the notifications to see, hear and speak to visitors in real time right from your mobile device.

However, without a subscription to Ring Protect, you won't be able to review any videos that you missed in real time, and you won't be able to save your videos or share them with anyone. Visit <https://ring.com/protect-plans> to learn more about Ring Protect and to choose a plan that works for you.
