

BLANK PATCH PANEL

24 PORT, HIGH-DENSITY

Maximize rack space and network flexibility with ADI PRO's high-density blank patch panel. It accepts most keystone jacks, accommodating a wide variety of brands and configurations. Ports are numbered on the front and back for quick identification of cable runs during installation, maintenance and upgrades. The unit features heavy-duty, powder coated steel construction and mounts to any standard 19-inch relay rack, cabinet or wall bracket.
