
Araknis 420 Switch Firmware Release Notes

Version 1.0.13

Release Date: 2025/03/05

Bug Fixes

- Multicast fixes for multi-switch MoIP and Ryff installations.
- Fixed an issue where multicast groups didn't register properly if the switch was flooded upon boot.
- Fixed a bug where UI/API tokens could reach a limit and prevent users from logging in.

Features & Improvements

- Added a search option to tables in the web UI.
- Improved some UI elements for ease of use on tablets.
- Improved wording around persistent PoE on 420 switches during reboot.

Version 1.0.08

Release Date: 2024/30/07

This is the initial firmware release.
