

The C3 remote is designed to provide advanced features for the LS Wireless Collection: LS60 Wireless, LS50 Wireless II, LSX II, and LSX II LT. Crafted with an aluminium top plate, the C3 remote features a sleek and ergonomic design that is both stylish and practical.

Seamless operation

Designed for superior IR performance, the C3 remote offers long-distance and wide-angle control. This means you can effortlessly manage your audio setup from anywhere in the living room. The LED feedback lens provides clear visual cues, keeping you instantly informed that the C3 remote is functioning as intended.

Intuitive controls

The C3 remote boasts backlit buttons, making it easy to navigate in low-light conditions. The thoughtful layout of the buttons and controls ensures intuitive operation, allowing you to quickly and easily select your desired input source. With the ability to assign custom functions to the favourite button through the KEF Connect app, you can personalise your entertainment experience with just a single click.
