

Streamline Commercial Audio Deployment

Episode Business Music Solution (EBMS) brings trusted Episode sound to a wider range of projects, offering an extensive catalog of professional audio solutions. Designed for commercial environments, EBMS provides a full line of DSPs, amplifiers, mix-amps, wall plates, and more to help create a cohesive audio system.

EBMS DSPs are MoIP-enabled for the distribution of AV content to multiple sources, resulting in a scalable and versatile audio solution for your clients. Additionally, OvrC enables simplified management by allowing multiple devices to be configured from a single, user-friendly platform.

Ideal for:

- Hospitality venues
- Fitness centers & studios
- Wellness spaces (spas, saunas, etc.)
- Retail stores
- Office & coworking environments

Purpose-Built for Commercial Performance

Episode Pro rethinks the commercial audio experience to deliver a best-in-class system for the most discerning customers. Episode Pro Audio products offer exceptional sound quality tailored for a wide range of commercial environments, from retail to hospitality.

With unmatched reliability, clear sound, scalable solutions, and seamless integration, Episode Pro Audio makes it easy to meet the specific needs of any space.
