STRONG: LEGION SERIES

TO-LR18U, TO-LR27U, TO-LR35U, TO-LR42U

Absolute Strength

Featuring heavy-duty welded construction in a stout steel frame, Strong: Legion Series racks deliver strength you can count on. They're equipped with active cooling, superb customization, and a build that supports the heaviest equipment.

Customize Your Strength

The Strong: Legion Series features adjustable rack rails, lockable and removable side panels, a reversible glass front door, and a lockable split back door, providing a custom fit for your equipment that's easy to service.

Air Flow Management

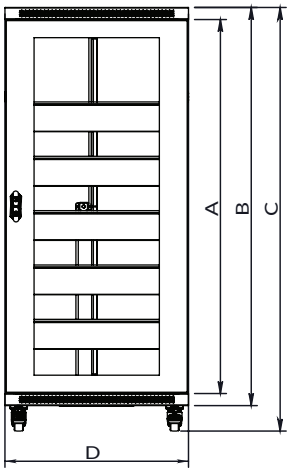

For system longevity, Strong: Legion Series racks come with vented shelves and blanks, plus built-in fans to keep equipment running cool.

Strength in Numbers

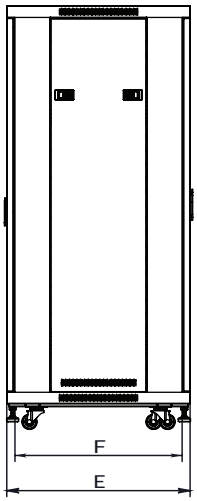

Strong: Legion Series racks are built in four sizes, giving you the perfect fit. And with a smooth, powder-coated finish, these racks can hold up to years of use.
