WIN MORE CUSTOMERS.
KEEP THEM LONGER.
DRIVE PROFITS.

ProSeries

ProSeries. Designed by professionals, for professionals.

Building on a foundation of proven technologies, we are pioneering the next wave of the connected home for you and your customers.

Resideo is a leading provider of home security, life-safety, enhanced notifications and home-control solutions. As industry pioneers, we have developed our next wave of connected home technology to help your customers feel safe, secure and in control. With more than a century of experience in innovative, reliable solutions, we are your trustworthy business partners, committed to your success.

**One platform. More protection.
More opportunity.**

ProSeries platform brings security and simplicity to homes and small businesses, with a host of features and benefits in one powerful, end-to-end ecosystem. It offers our largest-ever range of supported home solutions in one modular, scalable system.

**TRUSTED
IN 150 MILLION
HOMES.**

Resideo products are installed in over 150 million homes, helping customers feel comfortable, safe and secure worldwide.

HELPING YOUR BUSINESS WIN MORE CUSTOMERS.

Security and innovation at every step.

Modular by design, ProSeries products can be customized to your customers' individual lifestyles. Responsive alerts are faster than before, and the system now offers hands-free disarming for an enhanced user experience. Takeovers and upgrades are simple, cost effective and stress free. The future-proof system can grow with customer needs and is ready for the next technology trend.

Proven life safety.

ProSeries products help you take care of premises – and people. Smart sensors detect smoke, heat and CO, triggering One-Go-All-Go alarms and initiating audio and visual evacuation warnings throughout a building.

Available on ProSeries PROA7PLUS

With ProSeries family of products, Amazon Alexa isn't simply enabled – it's built in! Customers get Alexa functionality, so whether they want to check the weather forecast or raise their thermostat, they can do so with simple voice commands.

MotionViewers allow users to react with insight. HomeKit® allows inclusion of security into the Apple Home ecosystem and the built-in camera captures who disarmed the system. Hands-free disarming disarms the system without the need to enter a code.

View live video of Resideo Total Connect® cameras and SkyBell® doorbells on the panel and wireless touchscreen keypads.

The smarter home.

ProSeries products offers your customers a smart, connected home with a single, easy-to-use app, which controls lighting, locks, thermostats and more. Optional features like video storage help you upsell and increase your RMR.

The More Aware Consumer

ProSeries deploys solutions that increase customer engagement as they are kept aware of activity in and around the home. With new 24-hr. awareness responses, and configurable sound options, used in conjunction with MotionViewers, motion sensors, and door/window sensors, you may deploy solutions for a host of problems where the

user may wish to be notified without getting the Central Station Involved. Notifications are delivered using the control panel and Total Connect.

Small business security.

ProSeries products use the same peripherals and controls for small-to-mid-sized businesses and households, meaning no need for additional training or stock. With world-leading certification and compliance, the system can flexibly cover up to four partition areas and provides video alert verification.

Modular design means **customizable solutions** for individual lifestyles and **price points**.

One-Go-All-Go alarms for connected **life safety*** solutions.

One system works for residential and **small-medium business customers**.

Compatible with smart home technologies for connected, supported living.

Customized voice descriptors.

MotionViewers deliver alarm or awareness solutions.

ALL ROUND PROFESSIONAL SECURITY.

Professionally monitored security, day and night, will help give your customers a feeling of peace of mind.

Win|Keep|Drive

YOUR CUSTOMERS LONGER.

Increase the lifespan.

ProSeries products are future-proof, designed to grow with your customers' needs. Future technology upgrades are easily accommodated and extend the lifespan of your customer.

Modular to support changing needs and technologies.

Future-focused design to increase lifespan.

Protect and grow with AlarmNet 360® Insights.

AlarmNet 360 Insights shows how your customers engage with ProSeries products. It helps you manage, filter, export and sort account information, using real time, interactive dashboards that identify customer needs, so you can act on new opportunities as they arise.

Locks your sensors and protects your RMR.

Locks your sensors and protects your RMR.

Protect your customers.

ProSeries products make takeovers easy for you, but difficult for competitors. Our sensors lock to our panels, preventing re-use, which means customers considering a change must get in touch with your team, allowing you an opportunity to discuss their needs.

Dealer branding increases your awareness with customers.

Enhanced notification keeps end-user aware

Whole home protection with one system. Some features only available on ProSeries PROA7PLUS.

Win|Keep|Drive

MORE PROFITS.

More options. More choice.

With ProSeries' family of products broad range of modular security, life-safety, awareness and home control accessories, you have more opportunities to re-engage and upgrade customers after the sale.

Optional **end-user replaceable batteries** and modules.

Universal peripherals for **efficient stock control**.

One system. **Hardware, software and support** all together.

More efficient. More revenue.

ProSeries products means efficiency which could mean more revenue for you. The customizable templates and checklists mean smoother installs, the over-the-air updates and end-user replaceable parts will reduce truck rolls - and training is reduced thanks to the platform's seamless consistency. All of this gives you more time to spend on your business.

'Over the air' updates.

Remote **system diagnostics**.

Anytime-anywhere **system maintenance**.

No Internet. No problem.

You can program ProSeries products locally on the panel's touchscreen or wireless touchscreen keypad with an easy-to-use, intuitive interface that follows the same menu structure and options you will find with AlarmNet 360 web and mobile, providing dealers a choice of programming methods that best benefits their organization.

Simpler user interface - easier to learn.

Fully encrypted end-to-end.

**SEAMLESS,
SMART AND
EFFICIENT.**

Win more opportunities.
Keep customers loyal.
Drive efficiency and profits.
