

# Episode Surroundscape Series

## 12" Hardscape Subwoofer

ES-SS-HSUB12

This 12" subwoofer is designed to be mounted above ground with an option to mount permanently.

### IP67 Rated Waterproof Roto-Molded Enclosure

Rotomolding is a popular manufacturing process used in portable recreation coolers. Its IP67 ingress protection rating eliminates dust and water intrusion while allowing for reliability in the most demanding moisture conditions, including submersion.

### Hidden Woofer

This sneaky sub may not look like much but packs a mighty punch thanks to a powerful woofer hidden on its bottom side, which offers punchy bass with deep, ground-shaking lows.

### Permanent Mounting Option

This sub has a solid mounting base for mounting to a wooden deck or stone patio. Attach the base to the desired mounting surface and twist to lock the subwoofer on top.

# 12" Hardscape Subwoofer Series Specs
