Spotlight Cam Pro Plug-In (2nd Gen) -
White

B0DZ8L5CWZ

SKU: 207914

Spotlight Cam Pro eliminates dark spots and helps protect key outdoor areas with targeted, motion-activated lights. See critical details — even at a distance — with Retinal 4K video. Radar-powered 3D Motion Detection lets you fine-tune your motion zones to your property for more precise alerts.

Features

- Retinal 4K with 10x Enhanced Zoom: See the ultimate clarity and color with up to 10x Enhanced Zoom — powered by Retinal 4K.
- Low-Light Sight: Get a full-color view in the near-dark with Low-Light Sight. Nearby street lighting is all you need.
- 3D Motion Detection: Receive real-time phone alerts, delivered by radar-powered 3D Motion Detection.
- Live View & Two-Way Talk: See and respond to activity in real time.
- Illuminate Smaller Outdoor Areas: Deter unwanted activity with 600 lumen spotlights.
- Remote Activated Siren: Sound off in the Ring app to send unwanted visitors running.
- Works with Alexa: Hear custom notifications, launch video, and more on select Alexa-enabled devices.
- See More. Know More. Protect More.: Record all your videos, review what you missed for up to 180 days, get Person Alerts, use Smart Video Search to help you find that one moment in all your motion events, and more, with an eligible Ring Home Plan (subscription sold separately).
- Link with other Ring devices: Link with select Ring devices, allowing them to activate when Spotlight Cam Plus detects movement for additional security, recording angles, and more. Subscription required, sold separately.
