

Episode Passive In-Wall Subwoofer with Dual 8" Woofers

ES-SUB-IW-DUAL8

The Episode Passive In-Wall Subwoofer is a culmination of world-class engineering and uncompromising component selection. Each 8" woven fiberglass sandwich woofer features a Nomex Spider and oversized voice coil for unparalleled accuracy and low-end response. This subwoofer is perfect for mid-to high-end home theater and two-channel applications, delivering low-distortion, high-impact bass.

Audio Quality

Top-shelf driver components were specifically engineered and tuned for this subwoofer, reducing distortion and offering superior fidelity. Optimized for outstanding audio performance, the subwoofer will deliver realistic bass with a punch unmatched by the competition.

Solid Cabinet Construction

A ¾" MDF backbox creates the rigid foundation required for serious bass.

Anti-Vibration Pads

Rubber pads are included to "decouple" the subwoofer from the drywall. This isolates the cabinet to reduce vibration and room noise.

	ES-SUB-IW-DUAL8
Frequency Response	30 Hz - 200 Hz
Color	White
Connectors	Gold Plated Spring-Loaded Binding Posts
Power Consumption	380W, 1000W Dynamic
Sold As	Each
Speaker Grille	Magnetically Attached Aluminum Perf-Mesh
