

The Next Generation of Premium Multi-Room Integration and Control

Announcing the Launch of Total Control® Lite

Why Total Control Lite is For You

- An excellent choice to control and integrate audio/video products and popular subsystems such as lighting, locks, climate and more
- URC's Total Control Lite Accelerator software allows fast and easy programming
- Take advantage of URC's customizable graphics, auto-generated activities, voice control and off-site programming
- Affordable to consumers and profitable to dealers for installation up to 4 rooms
- URC's award-winning training team offers one-day programming and training certification

**Total Control Lite is available
through certified URC distributors**

A man and a woman are sitting closely together on a light-colored sofa. The man, on the right, is wearing a light blue polo shirt and khaki pants, and is holding a black remote control in his right hand, pointing it towards the right. The woman, on the left, is wearing a green top and has her hands resting on the man's lap. Both are smiling and looking towards the right. The background is a blurred wall with some red and white patterns.

"I have been very pleased with the URC control system. It's great to control everything with one remote."

- Homeowner, South Carolina

TKP-7600

7-inch In-Wall Touch Screen

- 7" high-resolution color LCD touch screen
- A/V intercom, camera, mic and speaker
- Ideal for door station and surveillance camera integration
- Rooms Menu, Proximity Sensor, Night Mode
