

EA-AMP-2D-150A

DESCRIPTION

The Episode® EA-AMP-2D-150A is an efficient Class-D amplifier that features two channels at a powerful 150 WRMS each, making it the perfect fit for stereo applications. With adjustable gain control and bridgeable outputs, it offers the versatility required for today's sophisticated audio systems.

GEMtech Technology

Features Episode's stringent product design criteria that focuses on energy savings through active energy management circuitry.

Digital Amplification

Up to 80% more energy efficient than traditional analog amplifiers, allowing for a smaller, sleeker chassis.

Bridgeable Outputs

Need more power? Bridgeable channels can turn this amplifier into a 300W powerhouse, perfect for high-power outdoor applications, or double-up for a killer stereo system.

Gain Controls

Features gain adjustments for each channel pair to independently adjust each audio zone during installation

SPECIFICATIONS

Power Rating (Watts / Channel)	150 Watts / Channel / 4 Ohms
Number of Channels	2
Construction (Digital / Analog)	Digital, Class D
Size (L x W x D)	17" x 4" x 13"
Rack Spacing (1U, 2U, 3U)	2U
Weight	18 lbs.
Ratings / Certifications (UL, CE, Plenum, FCC)	ETL 2000772, CE, FCC Part 15
Power Consumption (G.E.M, Energy Star)	400W (GEM)

2-Year Limited Warranty

This Episode® Amplifier has a 2-Year Limited Warranty. This warranty includes parts and labor repairs on all components found to be defective in material or workmanship under normal conditions of use. This warranty shall not apply to products which have been abused, modified or disassembled. Products to be repaired under this warranty must be returned to SnapAV or a designated service center with prior notification and an assigned return authorization number.
