

Revision Modification

(YXC_API_Spec_Basic.pdf v1.00 → v1.10)

Contents:

Expand control function to accommodate a request from market.

Page	Type	Contents
8	Add Parameter	getFeatures: system – func_list “disklavier_settings”
10	Add Parameter	getFeatures: play_queue, mc_playlist
10	Add Parameter	getFeatures: clock
15	Add Parameter	getNetworkStatus: airplay_pin “Reserved” → “Returns AirPlay PIN”
16	Add API	setWiredLan
17	Add API	setWirelessLan
17	Add API	setWirelessDirect
18	Add API	setIpSettings
19	Add API	setNetworkName
19	Add API	setAirPlayPin
20	Add API	getMacAddressFilter
21	Add API	setMacAddressFilter
21	Add API	getNetworkStandby
22	Add API	setNetworkStandby
22	Add API	getBluetoothInfo
23	Add API	setBluetoothStandby
23	Add API	setBluetoothTxSetting
24	Add API	getBluetoothDeviceList
25	Add API	updateBluetoothDeviceList
25	Add API	connectBluetoothDevice
26	Add API	disconnectBluetoothDevice
27	Add Parameter	getFuncStatus: zone_b_volume_sync “Reserved” → “Returns whether Zone B volume sync Zone A volume or not.”
27	Add Parameter	getFuncStatus: hdmi_out_1, hdmi_out_2
27	Add API	setIrSensor
28	Add API	setSpeakerA
28	Add API	setSpeakerB
29	Add API	setDimmer
29	Add API	setZoneBVolumeSync
30	Add API	setHdmiOut1
30	Add API	setHdmiOut2
31	Add API	getNameText
32	Add API	setNameText
35	Add Parameter	getStatus: surround_3d
40	Add API	set3dSurround
41	Add API	setDirect
41	Add API	setPureDirect
42	Add API	setEnhancer
42	Add API	setToneControl
43	Add API	setEqualizer
44	Add API	setBalance
44	Add API	setDialogueLevel
45	Add API	setDialogueLift
45	Add API	setClearVoice
46	Add API	setSubwooferVolume

46	Add API	setBassExtension
47	Add API	setLinkControl
47	Add API	setLinkAudioDelay
48	Add API	getSignalInfo
51	Delete	getPlayInfo: fm – freq delete “In case of DAB, returns Station ID”
53	Add API	setBand
56	Add API	clearPreset
56	Add API	startAutoPreset
57	Add API	cancelAutoPreset
57	Add API	movePreset
58	Add API	startDabInitialScan
58	Add API	cancelDabInitialScan
59	Add API	setDabTuneAid
60	Add Parameter	getPresetInfo: preset_info – attribute
61	Add Parameter	getPlayInfo: play_queue_type
64	Add API	setPlayPosition
66	Add Parameter	getListInfo: input
70	Add API	clearPreset
71	Add API	movePreset
71	Add API	getSettings
72	Add API	setQuality
73	Add API	getRecentInfo
74	Add API	recallRecentItem
75	Add API	clearRecentInfo
75	Add API	managePlay
76	Add API	manageList
77	Add API	getPlayDescription
78	Add API	setListSortOption
86	Add API	getSettings
88	Add API	setAutoSync
89	Add API	setDateAndTime
89	Add API	setClockFormat
90	Add API	setAlarmSettings
93	Add Parameter	Event: system – name_text_updated “Reserved” -> “Returns whether or not name text info has changed. If so, pull renewed info using /system/getNameText .”
93	Add Parameter	Event: system – signal_info_updated “Reserved” -> “Returns whether or not signal info has changed. If so, pull renewed info using /main/getSignalInfo ”
93	Add Parameter	Event: zone2 “Reserved” -> “Returns information related to Zone2. This data format is same as main zone’ s one above.”
93	Add Parameter	Event: zone3 “Reserved” -> “Returns information related to Zone3. This data format is same as main zone’ s one above.”
93	Add Parameter	Event: zone4 “Reserved” -> “Returns information related to Zone4. This data format is same as main zone’ s one above.”
94	Add Parameter	Event: netusb – recent_info_updated “Reserved” -> “Returns whether or not playback history info has changed. If so, pull renewed info using /netusb/getRecentInfo ”
95	Add Parameter	Event: clock
