

## BRINGING ELEGANCE TO LIGHT

Elegance manifests in various ways, with its true essence rooted not just in exquisite materials or precise craftsmanship but in the feelings it inspires. Enter Lux by Control4, a collection of keypads, dimmers, switches, and outlets designed to enhance luxury spaces.

Lux showcases a refined aesthetic that seamlessly blends style and functionality, appealing to discerning owners. It provides an extensive selection of design options, including premium metal faceplates and a variety of architectural finishes and colors. The distinctive buttons not only improve usability but also enhance the overall look.

With metallic plate choices like Antique Bronze, Chrome, Satin Nickel, and Venetian Bronze, you can create stunning designs. Ultimately, this combination of beauty and functionality creates a lasting sense of sophistication and emotional connection in every space.
