B-220-HDSPLTR-1x4

Binary™ 1x4 HDMI Splitter, Supports 3D and Deep Color

BINARY

DESCRIPTION

The Binary™ 1x4 HDMI Splitter has full support of HDMI 3D with EDID management, plus it splits the signal without loss of quality or resolution. Use it in applications where you have a projector for nighttime viewing and a TV for the daytime, or when you need to split a DVD player or cable box to multiple TVs.

HDMI 3D Support

Full support of HDMI® 3D with 36-bit Deep Color and HDCP 2.0, as well as 7.1 surround Dolby® True HD, Dolby® Digital Plus, DTS™-HD Master, and LPCM audio.

Configurable EDID

With three modes – auto, embedded and synched to output 1 – you can configure the EDID to best match your application and devices.

LED Status Indicators

LEDs for power and HDMI input/outputs let you see what's properly connected, turned on, and ready for use.

Versatile Mounting

Equipped with rubber feet and mounting ears, you can easily secure this splitter on a shelf or on the wall.
