

Binary™ USB 2.0 Reversible A-Male to Micro B-Male Cable

Used primarily with USB on-the-go compatible products, the A to Micro B is vital in establishing a unified communication system. Installation and use remains user-friendly with a reversible A connector. Aluminum foil and braided shielding ensures protection that will never compromise the USB 2.0 compliant signal of speeds up to 480Mbps. Add on the incredibly flexible outer jacket, and you've got a cable that you can count on.

Reversible A-End

The universal reversible connectors allow for quick installs on just about any job.

Bendier is Better

Our cables are incredibly flexible and allow more freedom with installs.

Strength of Shielded

The aluminum-shielding layer combines with a braided shielding so that signal quality isn't compromised by EMI.
