

CARBON SERIES

PORTRAIT MOUNTS

Strong is here to deliver more versatility and durability to your displays with the Carbon Series Portrait Mount line, offering the strength Strong is known for to your next unique portrait-oriented display. This series offers fixed and tilt portrait mount solutions.

For Indoor or Outdoor Use

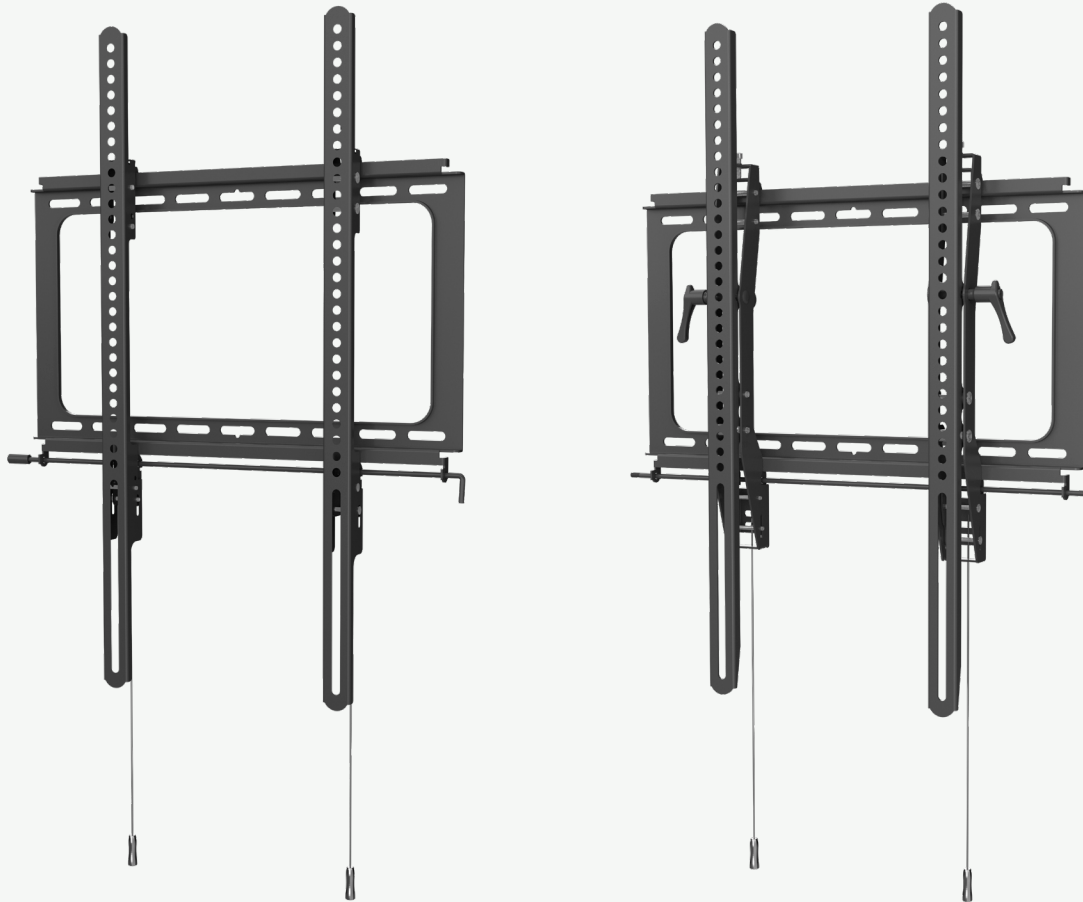

These mounts are specially designed to withstand the harsh demands of any outdoor environment. They are fully-weathered with dacromet coating and have been thoroughly tested to ensure they stand up to the toughest outdoor environments. These mounts also work perfectly for indoor applications, meaning you can use them anywhere!

For the Perfect View

Strong mounts are designed with convenient built-in features like magnetic pull strings and 1-inch of post-install leveling to help you enjoy the perfect display and viewing angle with ease.

Built to Be Strong

The Strong Portrait Mount is made of a durable steel frame and features a carrying capacity of 200 lbs to handle the heaviest displays. These mounts are rigorously tested and can support 40" to 90" displays.
