

## Araknis Switches

ARAKNIS 300-SERIES SWITCHES MAKE IT EASIER THAN EVER TO INTEGRATE WITH SURVEILLANCE CAMERAS, CONTROL SYSTEM TOUCH PANELS, AND WAPS ON THE NETWORK.

Features include Power over Ethernet for a sleek installation, a speed of 1 Gbps per port which lets you confidently support your high-data devices, and a cloud app that lets your integrator troubleshoot any issues quickly and remotely.

Araknis Networks understands the importance of modern, seamless connectivity. You need devices that work in sync. Information at the touch of a button. A smart home where your equipment is interconnected. That's what Araknis does.

We make your net work.

### FEATURES

- **POWER OVER ETHERNET** •

PoE ports deliver a full 15W simultaneously, or up to 30W either across a single port, or half the ports at once without the need for an additional power cord. A simple user interface displays PoE consumption per port for the entire system.

- **1Gbps PER PORT** •

Get a whopping 1Gbps on every port at the same time—perfect for multiple high bandwidth devices.

- **DUAL SFP LINKS** •

Use this switch's SFP ports to provide RJ45 uplinks to other devices, and/or fiber uplinks to extend the network over long distances while getting a stronger signal.

- **MULTIPLE MOUNTING OPTIONS** •

LEDs on the front and ports on the back keep wires out of sight for an organized look. Rack ears feature multiple mounting holes for flush or recessed placement in a rack or on your wall or ceiling.
