

WattBox Compact UPS with Cloud Management

The compact WattBox 350 Uninterruptible Power Supply makes protecting and managing equipment easy.

Pure Sinewave Technology

This key technology delivers smooth and clean power to critical devices and ensures equipment performance and efficiency.

Cloud Managed

Pair this device with an IP WattBox using the proprietary link connection to manage the UPS with the free included cloud platform, OvrC.

Load Shedding

When connected to an IP WattBox, outlets can be intelligently turned off based on the UPS's battery percentage.

Compact Form Factor

With its small size, this WattBox UPS can easily fit into a structured wiring can or in-wall storage solution.

WattBox® Standby UPS & OvrC Battery Pack (Ultra Compact)

WB-OVRC-UPS-350-6

Apparent Power Rating	350VA
Max Power (Watts)	210W
