

Z-Wave® Gateway Lighting Application Packages

Give your clients the ability to control lighting and more with Z-Wave® Gateway packages from URC. Pair your Gateway with any number of dimmers or switches for a standalone lighting system compatible with thousands of other Z-Wave devices and scalable to control/automation systems like MX HomePro and Total Control.

Theater / Single Room

Dim and control lights to create the perfect setting for movie night, without getting up off the couch or pressing pause.

Use: Z-Wave Gateway + 2-4 Switches or Dimmers

Outdoor

Keep your mind at ease and your house secure with automatic lighting to the porch, entryway, or driveway.

Use: Z-Wave Gateway + 4 Switches or Dimmers

Whole Home

Control lighting to the main living space, kitchen, dining room, and more with a whole-home system.

Use: Z-Wave Gateway + 6-8 Switches or Dimmers
