500-Series Specialty In-Ceiling Speakers

► ARCHITECTURAL

Smooth Operator Enjoy Natural, Silky Sound

- Injection-Molding process results in a lighter woofer material, offering dynamic and accurate bass
- Tweeter position and output are adjustable for customizing every system
- Application-driven design for unique installations

Episode: Real Performance for the Real World. The Specialty Architectural models in the ES-500 series are engineered to give you the most versatile options that meet the aesthetic and performance needs of today's custom installations. Acoustically matched to work seamlessly together, the ES-500 Series offers the most capable design for any application, with the crisp, detailed sound you crave from a quality speaker.

Lifetime Warranty

Episode in-wall, in-ceiling and bookshelf Speakers have a Lifetime Limited Warranty. This warranty includes parts and labor repairs on all components found to be defective in material or workmanship under normal conditions of use. All warranty claims must be made through an authorized Episode dealer.
