Designed to Perform

Custom 12" driver with Nomex spider and oversized high-temp voice coil for incredible output with low distortion.

Built for Sound

Dual tuned ports provides loads of power for your favorite music and movies. Plus, front porting means you won't get unwanted resonances when installed.

Engineered for Efficiency

Features hybrid technology for power handling that's 60% more efficient than conventional designs, and a power-saving standby mode with auto-on sensor.

Customized for Performance

Adjustable crossover and phase controls allow customized tuning to match any speaker and room set-up for the ideal audio/video performance.

Lifetime Limited Warranty

All Episode Speakers have a Lifetime Limited Warranty. This warranty includes parts and labor repairs on all components found to be defective in material or workmanship under normal conditions of use. This warranty shall not apply to products which have been abused, modified or disassembled. Products to be repaired under this warranty must be returned to SnapAV or a designated service center with prior notification and an assigned return authorization number (RA).
