

INSTALLATION MANUAL
ES-SUB-IW-SNGL8

REAL. LIFE. SOUND.

INTRODUCTION

Thank you for purchasing Episode® speakers. To complete installation, follow these guidelines. Visit our website for design recommendations and speaker calculators.

SETUP

Subwoofer Placement

Episode® subwoofers are designed to make your music and movies come alive. However, the placement of the subwoofer can affect its performance. All rooms are different, but the strongest output will likely occur if you place your subwoofer in the front of the room on the same wall as your front channel speakers.

Keep subwoofer about 2 feet away from corners and other surfaces that might interfere with or reflect sound, such as tall furniture.

Existing Construction Install

Make a cutout for the speaker using the supplied template. Allow space for the bezel if installing near adjacent objects, or cut the hole in two steps as shown below.

1. Cut the drywall at a 45° angle so that if the speaker is too close to an obstruction, you can easily 'plug' the hole.

2. If there are no obstructions, cut the drywall again, this time at a 90° angle.

3. Insert the speaker into the cutout.

SECURE

Tighten each of the four screws to clamp the subwoofer against the wall.

When mounting next to a stud, ensure there is enough room for the dog legs to rotate out and clamp the stud.

Place the grill over the subwoofer, making sure it is flush against the wall.

CAUTION: Do not overtighten screws. This could result in damage to both the subwoofer and wall.

CONNECT

Observe proper polarity for each speaker to the amplifier (+ to + and - to -).

EA-AMP-SUB-1D-110

EA-AMP-SUB-1D-150

CAUTION: Only connect one ES-SUB-IW-SNGL8 to Amplifier

FINE TUNE

Fine tune the subwoofer after all connections and calibrations are complete.

WARRANTY

Limited Lifetime Warranty

Episode® speakers have a Limited Lifetime Warranty. This warranty includes parts and labor repairs on all components found to be defective in material or workmanship under normal conditions of use. This warranty will not apply to products that have been abused, modified, or disassembled. Products to be repaired under this warranty must be returned to SnapAV or a designated service center with prior notification and an assigned Return Authorization number (RA).

CONTACTING TECHNICAL SUPPORT

As a thank you for purchasing Episode® speakers, direct technical support services are available via phone or e-mail. We encourage you to use this resource for any questions or concerns about our products. Visit our website for more support documentation.
