500 SERIES

Luma Surveillance™ 500-Series Analog Camera

Experience crystal-clear video with Luma Surveillance™ 500-Series cameras. The 1080p resolution provides you with a high-quality, accurate picture every time. The 500 Series even comes with installer-friendly features and multiple color choices, so they fit seamlessly into any environment.

HD QUALITY OVER ANALOG

Thanks to HD-TVI technology, you get sharp, 1080p resolution every single time. These cameras even support HD-TVI or traditional analog up to 960H – the choice is yours!

EASY INSTALL

We've included a test port and OSD joystick right on the camera, so you can quickly adjust video and OSD. Plus, longer zoom and focus levers make for easy adjustments.

BUILT-IN EXTENSION MOUNT

Extension mount shell housings help seal out water and serve as handy wire management when completing installs.
