Luma Surveillance™ 500-Series 8-Channel DVR (2U)

With the Luma Surveillance™ 500-Series 8-Channel DVR, analog is re-imagined in 1080p HD. With this HD analog support, 1 TB of pre-installed internal storage, and native live streaming to different control systems' user interfaces, it's easy to check on what matters.

HD ANALOG

This DVR features support for ultra-sharp resolutions up to 1080p thanks to HD-TVI technology. You've never seen analog like this. Get 1080p when you combine our new Luma Analog cameras.

CAMERA COMPATABILITY

Luma DVRs are designed to work with both Luma and Wirepath Surveillance cameras. Luma DVRs are also backward compatible with all traditional analog cameras up to 960H.

RACK-MOUNTABLE

Our slender DVR is rack-mountable so you can keep things neat and tucked out of the way.

INTUITIVE USER INTERFACE & DEDICATED APP

Rewind and fast forward, pause, take a snapshot, playback, and zoom are all easily controlled with a click on our intuitive user interface when viewed in Internet Explorer or Safari. If a tap or a swipe is more your comfort zone, our Luma app, built for iOS or Android mobile devices, provides peace of mind as you're able to check on what matters – anytime, anywhere.

EASY INSTALL AND SETUP

Set up is easy with our Luma utility. The utility can be accessed on your PC to view the DVR User Interface via web browser.
