

# One Great Camera

Luma's 500 Series IP fisheye captures everything you need to see on a single camera, outperforming systems that require several cameras to offer the same level of coverage.

All Luma IP cameras detect motion while raising less false alarms, integrate with popular control system keypads and touchpads, and feature a dedicated, sleek mobile app for iOS<sup>®</sup> and Android<sup>™</sup>.

## HIGH QUALITY PICTURE

At up to 6MP, our fisheye camera offers rich native images that can be stretched to crystal clarity without artifacts or issues.

## SMART MOTION TECHNOLOGY

Once a camera detects motion, it can send out custom notifications & alerts. Smart Motion's advanced algorithms cut down on false alarms.

## INTUITIVE LUMA APP

Did you leave the garage door open? Want to check in on the dog? Watch live video or playback the camera stream anytime.

# Technical Specs & Features

FEATURES	LUMA
	500 Series
Application	Ideal for in-ceiling installs replacing multiple cameras
