

Angle Mount
Analog Surveillance Accessory

Installation Manual

Installation

Before you start, ensure that the hardware is in good condition and all assembly parts are included.

Check that the mounting surface is strong enough to withstand three times the weight of the mount and camera.

If installing on a cement surface, use the included expansion anchors to install the mount. If installing on a wood surface, use self-tapping wood screws (not included) to secure the mount.

Take care that all equipment is powered off during installation.

Important Note: To avoid damaging the surface of your dome camera during installation, keep it away from walls and other objects. Do not remove the protective coating from the dome until after the camera is installed and the dome is in place.

If the product does not assemble properly, please contact technical support.

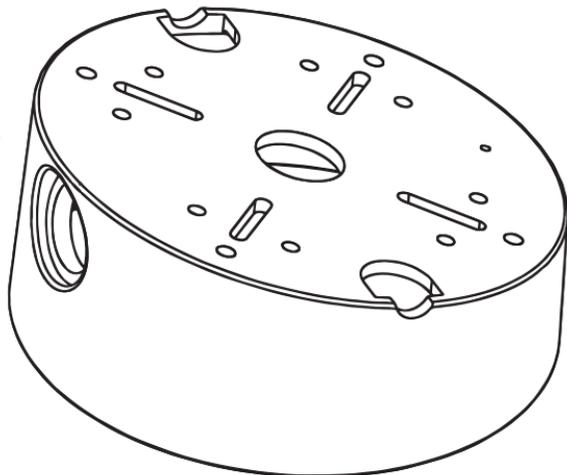

Compatibility

This can be used with Luma Surveillance 300-, 500-, and 700-series analog dome cameras.

Box Contents

Before installing, familiarize yourself with the parts of your mount.

- Angle mount
- 4 wall anchors
- 4 mounting screws (to attach to a pole mount or other accessory)

How to Use this Product

This angle mount replaces the base of your dome camera, providing a 10° tilt to its angle. Remove your camera from its base, and set that base aside.

Use this base in its place, following the steps provided in the camera manual. Use the longer screws provided with the camera to attach it to this angle mount.

Support

If you need help, email support@SnapAV.com. For information, instructional videos, support documentation, or ideas, visit our website.

5-Year Limited Warranty

This Luma Surveillance[™] product has a 5-Year Limited Warranty. This warranty includes parts and labor repairs on all components found to be defective in material or workmanship under normal conditions of use. This warranty shall not apply to products that have been abused, modified or disassembled. Products to be repaired under this warranty must be returned to a designated service center with an assigned return authorization (RA) number. Contact technical support for an RA number.
