

## Fisheye URC Module Release Notes

### 14 Jun 18

The purpose of these release notes are to provide detailed information regarding fixes, enhancements, and known issues related to the Luma Fisheye Camera Control System modules.

#### What It Is

These are the official URC modules for Luma fisheye camera.

#### Important Note

Please ensure the sub stream on your control system is set to 6 frames per second or higher. Some control systems treat a stream with lower frame rates as if it were an image.

#### Where to Find It

The driver can be found in the URC Total Control System software database.

#### Features Added

Support for the fisheye camera.

#### Known Limitations

H.264 is not supported on this control system.
