

1- Overview

The following list of Crestron panels has been verified to function without any issues with the Crestron module for Wirepath Surveillance DVRs. Any panel not listed has not been verified and functionality cannot be guaranteed. This list will be updated as panels are verified to function with Wirepath™ Surveillance DVRs.

2- Officially Supported Panels

Note: As always, ensure that DVRs and Crestron panels contain the latest versions of firmware before configuring or using the system.
