Release Notes: Visualint Line NVR Software

V 7.5.0

Priority: **MODERATE**

Released: 2018/04/06

This software is required to get full functionality from your Visualint Line NVR and IP cameras. This software adds several enhancements and fixes several issues.

NOTE: This software is only to be installed on the full-size line NVRs. This may be used to manage the VI-L-MICRO NVR. Mini Maxx NVRs are not supported by this software.

Models Affected

- VI-L-4-2000R
- VI-L-8-2000R
- VI-L-8-4000R
- VI-L-16-4000R
- VI-L-16-6000R
- VI-L-32-8000R
- VI-L-32-16000R
- VI-L-24TB
- VI-L-32TB
- VI-L-48TB

Enhancements

1. New video export dialog.
2. Security enhancement when using Visualint cameras.
3. Timeline zoom buttons added.
4. Client setting "Display the first stream in the absence of the second one in archive view" added.
5. Sort cameras by name in "Manage" added.
6. Flag analytic events in the Line archive (requires Visualint cameras running R6 Firmware).

Issues Resolved

1. Client settings now can enable or disable displaying Line interface on top of all windows.
2. Archive loading time when connecting to servers with several HDDs has been considerably reduced.
3. Displaying channel numbers in menu "Manage > Video"
4. Added camera toggle buttons in full screen view.
5. When a camera is added, the second stream is enabled by default.
6. Camera search dialog functionality has been enhanced.
7. Time select widget for reactions setup has been changed.
8. Time select dialog for viewing archives has been corrected.
9. Seconds have been added to export information.
10. Now skips empty sections of the archive when exporting with sound.

Known Issues

1. Requires client version 7.5 and higher for some features to work.
