

Release Notes: Visualint Line NVR

V7.5.0

Priority: **MODERATE**

Released: 04/06/2018

This software is required to get full functionality from your Visualint Line NVR and IP cameras. This software adds several enhancements and fixes several issues.

NOTE: This software is only to be installed on the full-sized Line NVRs. This may be used to manage the VI-L-MICRO NVR. Mini Maxx NVRs are not supported by this software.

Models Affected

VI-L-4-2000R, VI-L-8-2000R, VI-L-8-4000R, VI-L-16-4000R, VI-L-16-6000R, VI-L-32-8000R, VI-L-32-16000R, VI-L-24TB, VI-L-32TB, VI-L-48TB

Enhancements

1. New video export dialog
2. Security enhancement – When using Visualint cameras
3. Timeline zoom buttons added
4. Client setting "Display the first stream in the absence of the second one in archive view» added
5. Sort cameras by name in "Manage" added
6. Flag analytic events in the Line archive (requires Visualint cameras running R6 Firmware)

Issues Resolved

1. An option that allows to enable or disable displaying Line interface on top of all windows has been added to client settings;
2. Archive loading time when connecting to servers with several HDDs has been considerably reduced;
3. Displaying channel numbers in menu "Manage" – "Video"
4. Camera toggle buttons in full screen view have been added
5. When a camera is added, the second stream is enabled by default
6. Camera search dialog functionality has been extended
7. Time select widget for reactions setup has been changed
8. Time select dialog for viewing archives has been corrected
9. Seconds have been added to the line with the time of export information
10. Skipping empty sections of the archive when export is done with sound

Known Issues

1. Requires client version 7.5 and higher for some features to work.
