

# THE BENEFITS OF REMOTE VIDEO MONITORING?

## OFFERING 24/7 SECURITY WITHOUT THE STRESS.

Visualint's partnerships with well-known monitoring companies mean you can now deliver premium service without making a thousand truck rolls.

### Find a Partner

Our custom program pairs Visualint dealers with the best video monitoring company for their next job.

These trusted partners can offer your clients the most cost-effective and comprehensive property coverage on the market.

VISUALINT + SECURITY

### A FULL-TIME LOOKOUT

When you partner with a central station, your surveillance solution operates 24/7, offers real-time responses to alerts on a case-by-case basis, and can also initiate active security measures.

### LIVE DETERRENENTS

For clients who truly want to stop events before they happen, monitoring companies deliver active security features such as audio-talk down and police notifications -- all before a building can be breached.

### HIGHEST SECURITY LEVEL

Remote monitoring partners offer comprehensive crime prevention - even before an event occurs. They can keep a watchful eye on anything from a lot full of cars to construction yard supplies.

### EXCLUSIVE PARTNERSHIPS

Thanks to Visualint's next-gen analytics and expert Virtual Tech setup, our trusted monitoring partners are able to offer the most cost-effective and comprehensive property coverage.

# HERE'S WHAT VIDEO MONITORING CAN DO

## AND HOW YOU CAN IMPLEMENT IT SUCCESSFULLY

Because reduced false positives slash overall camera costs, and cut out all those extra agent calls, you can spend your valuable time beating the competition.

### COMPETITIVE RATES

Customers love a good bargain, but it doesn't mean they should skimp on security in the meantime. Visualint can give you an edge over similar competitors, without compromising your client's security needs.

### MORE SERVICES

Smart homes and businesses need an integrator who can offer more than enterprise-grade equipment. We'll help you deliver premium customer service to your clients at every stage of the job.

### MONTHLY RMR

Using products like Virtual Officer, which can be leased to GCs or other professionals, you can easily create a recurring revenue stream and reap the benefits of proactive customer service - in a fraction of the time.

### FREE DESIGN & SETUP

Visualint's innovative system design and Virtual Technician services were created so you could give your client a fully custom security system at no extra cost.

## Expert Level

Visualint's always ready to work with integrators who are just as excited about remote video monitoring as we are.

Partner with us and our recommended monitoring companies, and we'll help you become a video security expert.
