

## 9 Camera Surveillance DVR System:

- 500GB DVR with D1 Encoding – 270fps – H.264 Compression
- HDMI output and DVD sled for archiving
- Web and Mobile Phone Access
- Free DDNS Service

### System Notes:

1. If a microphone is needed for more than 1 camera, then a 8x1 mixer should be used.
2. Audio out on DVR can also be used to feed an amplifier and speakers.
3. Signal transmission baluns and camera mounting accessories can be found in Surveillance -> Accessories page.
4. Router Setup, DVR support, and instructional videos can be found on the DVR product support page.
