AUTONOMIC

ADVANCED MUSIC BRIDGE
AMB

Technical Specifications

The Advanced Music Bridge works with eSeries Mirage Media Servers to bring next generation features available in Mirage OS 7.0. Seamlessly add the AMB to any new or existing eSeries system with plug-and-play operation.

Backwards compatible with all eSeries Mirage Media Servers

Unlocks next generation features in Mirage OS 7.0

Access to two network streams of Apple Music

Adds Calm Radio music service
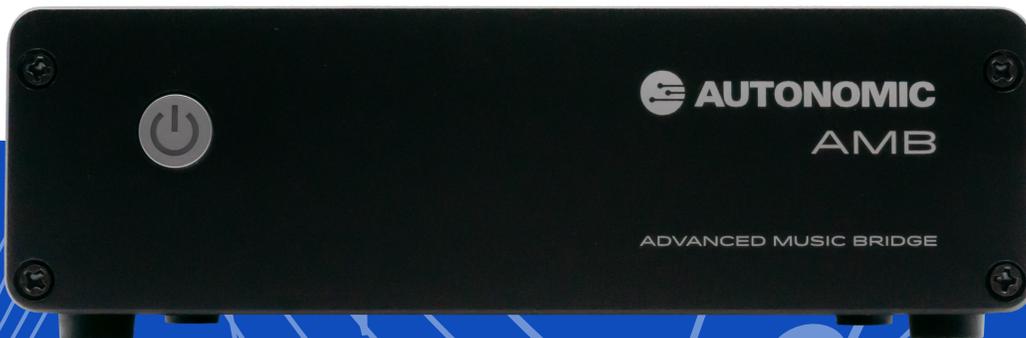

Increased track limit to support large library systems

Full browse with control system interfaces

Plug & Play setup with new and existing eSeries systems

No audio interconnects needed between AMB and MMS
